

# PROG10 – 0798 – Utilitários

## Ficha 2

Apresentar sempre a captura da imagem dos vários passos e dos resultados. Caso não possa executar os passos, faça apenas uma simulação. Fazer captura da imagem das instalações e do software em funcionamento, sempre que possível.

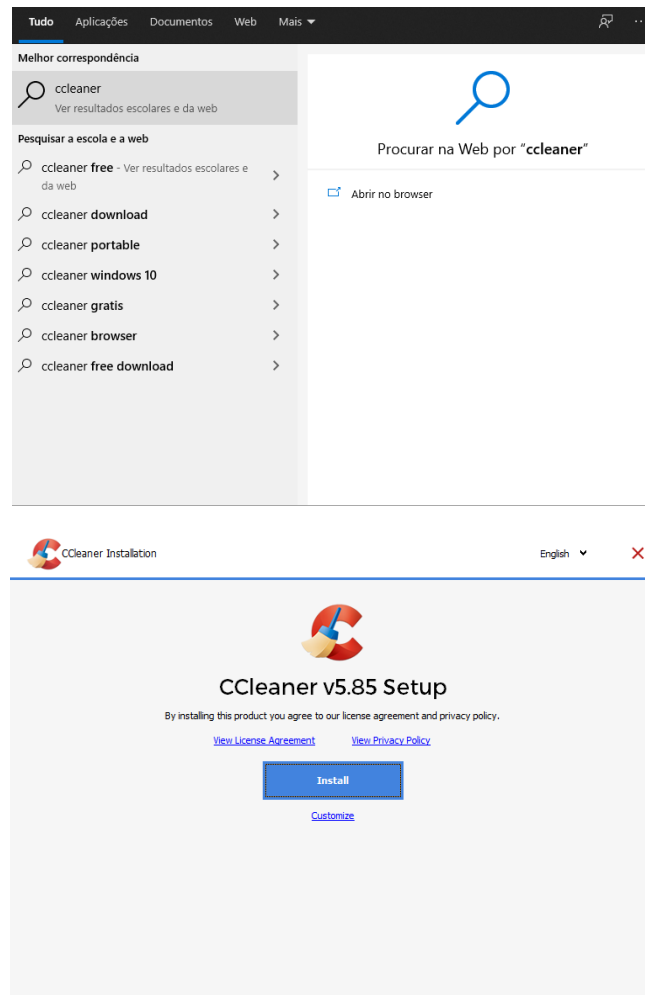

1. Instale na máquina virtual ou em versões Portable (se disponíveis, com ou sem a plataforma Portable.Apps) as seguintes ferramentas de manutenção:
2. Advanced System Care e ferramentas associadas

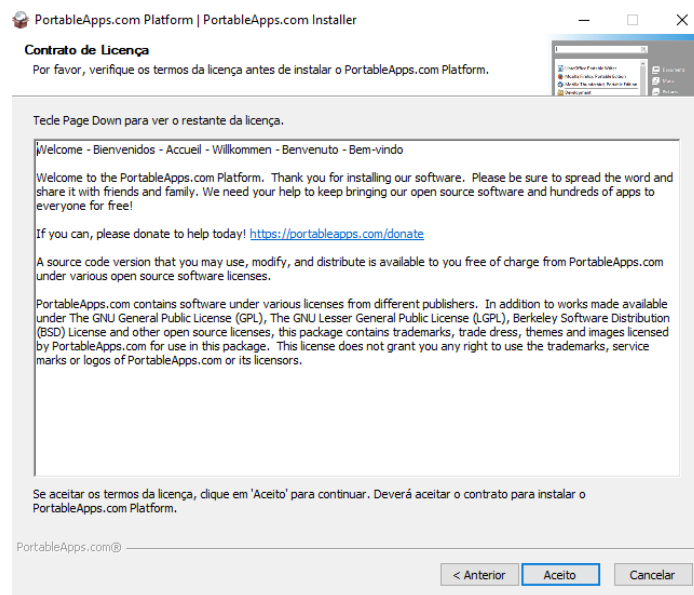

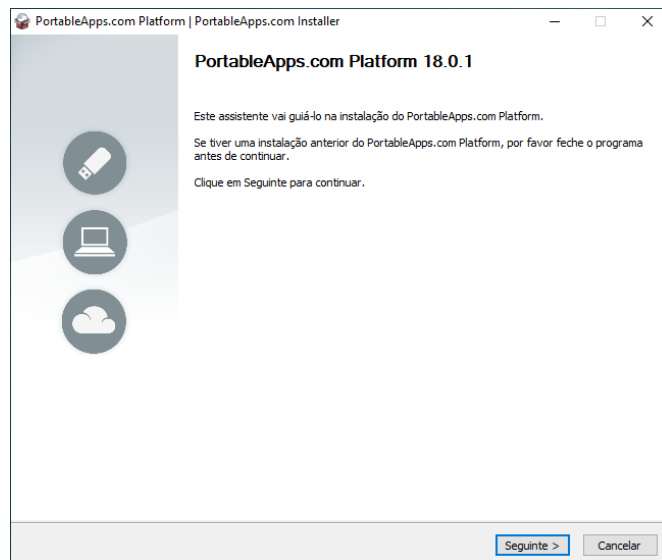

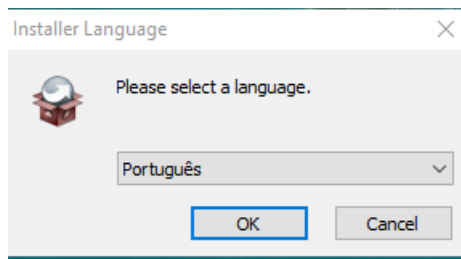

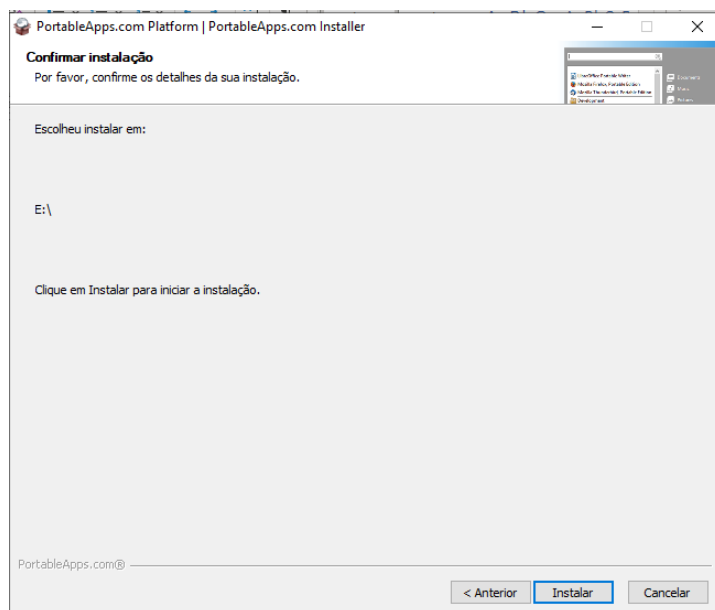

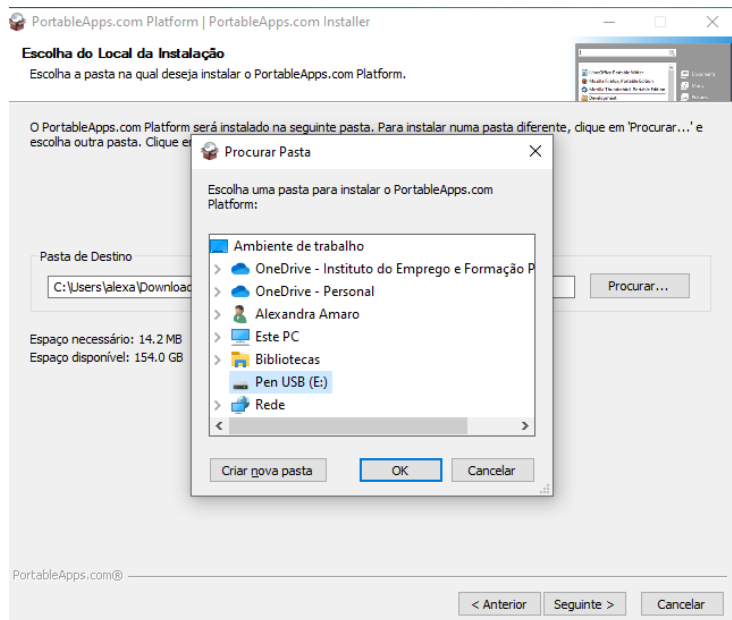

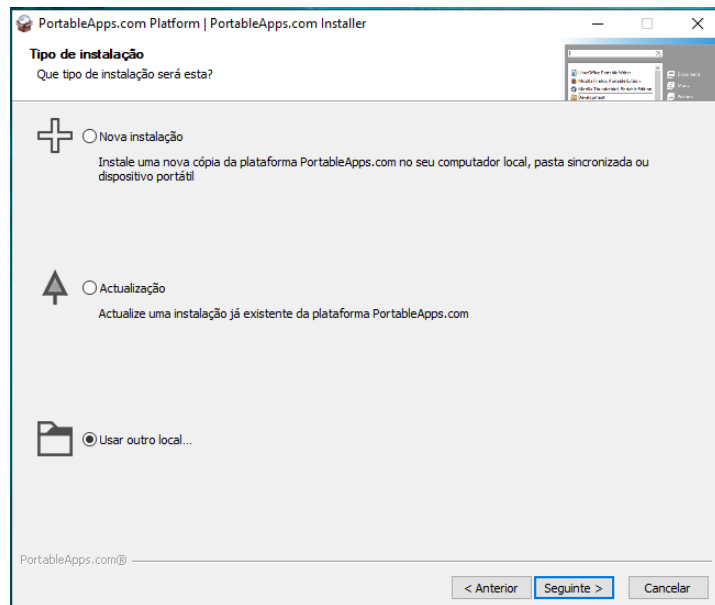

### 3. CCleaner e ferramentas associadas

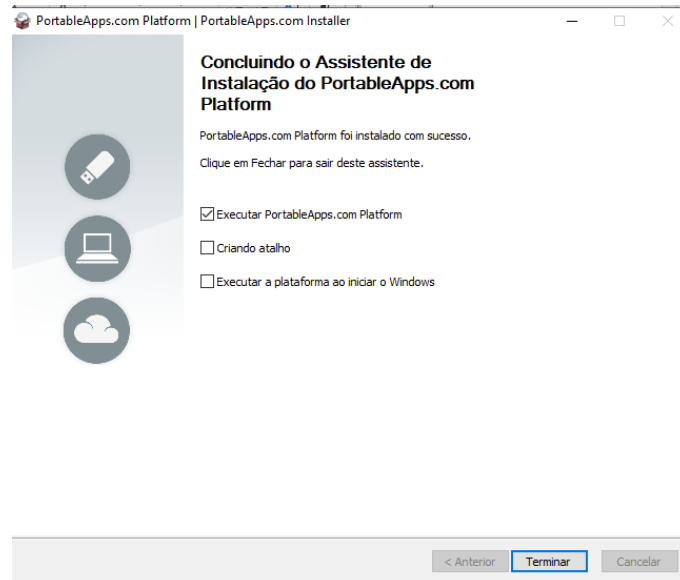

Sendo que não tenho memória suficiente para instalar na máquina virtual, não passei deste ponto da instalação do CCleaner, porque não quero instalar no meu computador.

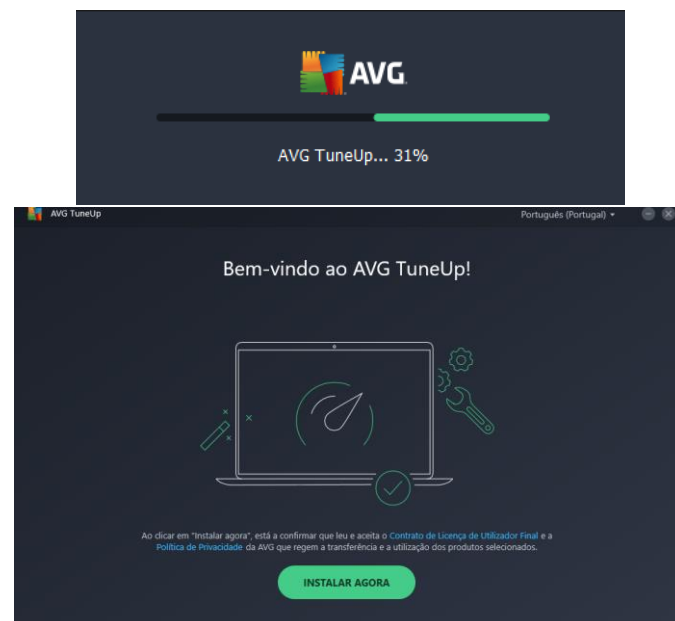

Versão Portable \*instalei numa Pen USB:

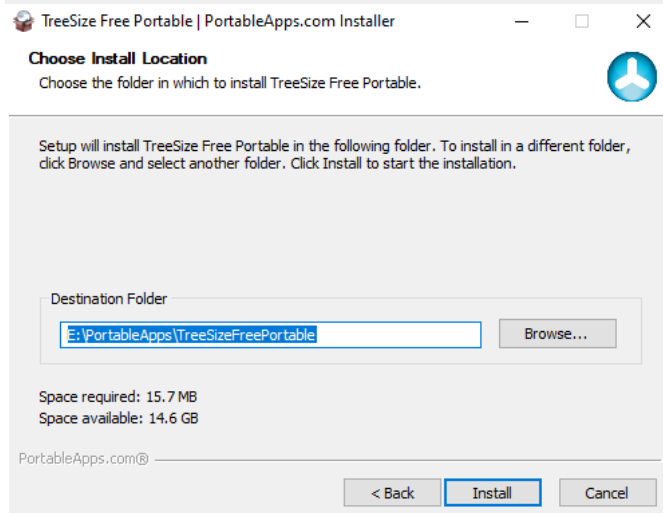

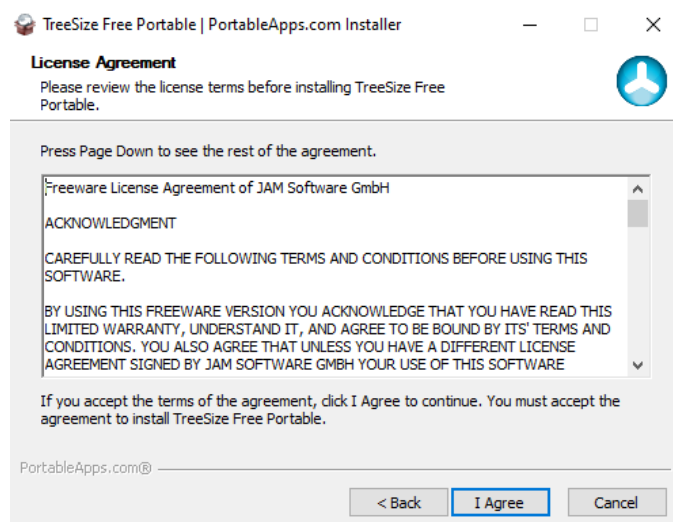

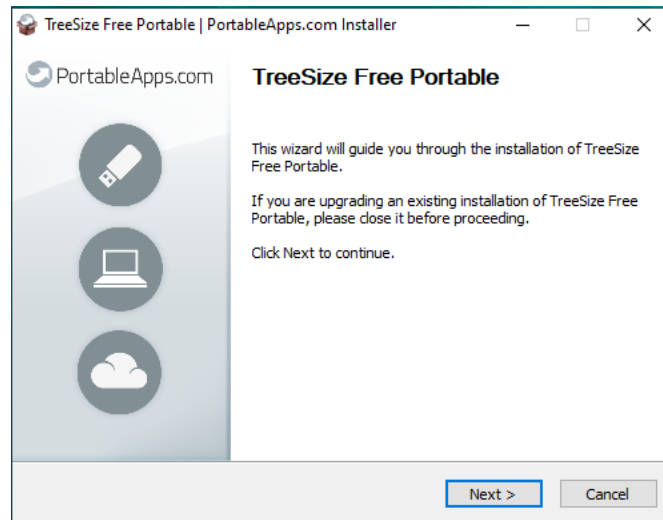

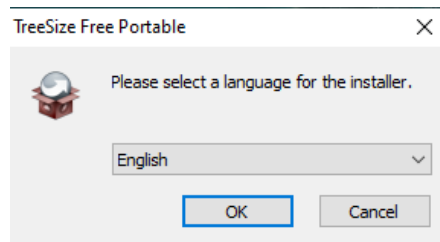

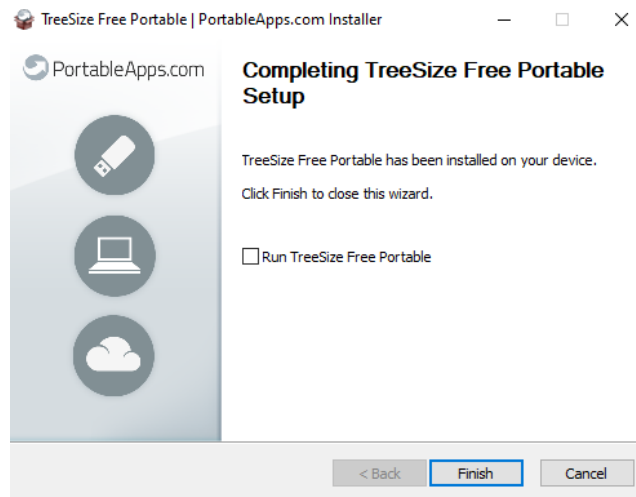

#### 4. TuneUp Utilities

Não finalizei a instalação, fiz apenas esta simulação

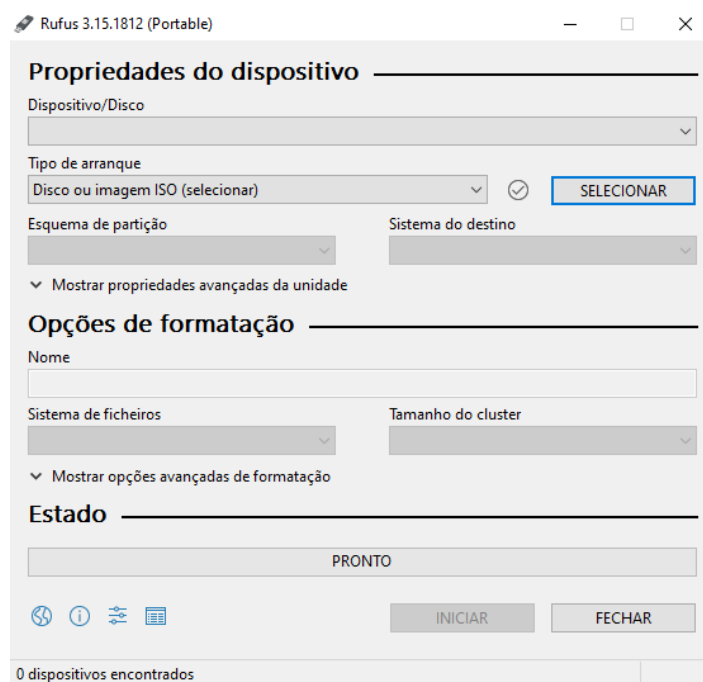

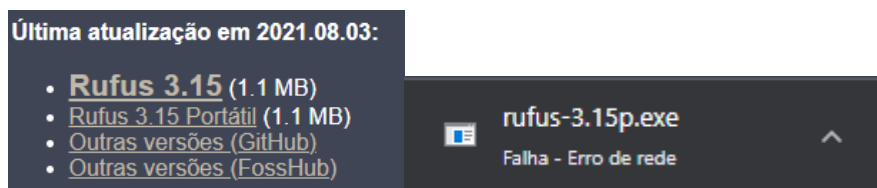

## 5. Tree Size Portable

6. Pesquise por outros utilitários que conheça ou lhe parecem úteis.

**Rufus** -> utilitário que ajuda a formatar e a criar unidades USB inicializáveis (USB/pendrives, cartões de memória, etc).

E como desapareceu o meu Acrobat Reader, também instalei:
